# Current Employment Statistics (CES)

The Current Employment Statistics (CES) program is a monthly survey of employers conducted by the Bureau of Labor Statistics. The program provides employment, hours, and earnings estimates by industry.

- Employment data refer to persons on establishment payrolls who receive pay for any part of the pay period that includes the 12th of the month
  - Persons are counted at their place of work rather than at their place of residence
  - Persons appearing on more than one payroll are counted on each payroll
- Establishments are classified in an industry based on their principal product or activity using the North American Industry Classification System.
